Movement of democratic and laic Republicans of Iran

18,09 2022

13 th of September 2022 To: His Excellency Antonio Guterres, General Secretary of the United Nations, and The Dignitaries of the General Assembly of the United Nations On this day of 21st of September 2022,

some 77 years after it first adopted its charter, the United Nations once again assembles to assure the nations of the world that there exists a body to represent and safeguard the observance of world peace and the rights of human beings everywhere. This charter clearly states that the body assembled here is designed, among other objectives, to prevent the disasters and negative consequences of such things as war and disregard for human rights, wherever they occur. Seated in the assembly this year, however, is the president of the totalitarian regime in Iran, namely Mr. Ebrahim Raisi whose track record demonstrates anything but regard for human rights. At an early age and with scarcely any formal qualifications, Mr. Ebrahim Raisi became a member of the judiciary system in Iran's chaotic post-revolutionary times. From the very beginning, as he himself has admitted, he was a proud and active member of the infamous "Death Committee". This committee was created by Ayatollah Khomeini, the then leader of the country, to suppress any and all opposition in Iran at any cost. Mr. Ebrahim Raisi unashamedly claims to be honored to have signed the death warrants of hundreds of Iranians of all ages whose only objectives were to ensure the implementation of human rights and freedom in Iran. Between 1981 and the end of 1988 alone, some 5 000 Iranian men and women, young and old, were executed through the offices of the "Death Committee" of which Mr. Ebrahim Raisi is so proud to have been a member. With this appalling track record, Mr. Ebrahim Raisi has no place in an assembly whose charter sets out to defend human rights. In fact his presence among you is nothing less than a slap in the face of freedom fighters and defenders of human rights everywhere. His own words and actions clearly demonstrate that he lacks all respect for the values that the UN charter was adopted to protect. We therefore ask all members of the 77th General Assembly of the United Nations to show solidarity with freedom-loving people everywhere against the tyranny of the likes of Mr. Ebrahim Raisi by recognizing neither his presence among you nor his speech.

Respectfully, Committee in support of the Iranian civil movements against the Islamic Republic of Iran CC/ Volker Türk High Commissioner for Human Rights of the United Nations
